FIG. 15

FIG. 16

FIG. 16 is a schematic diagram of a zoom lens system. The diagram illustrates the internal components and optical paths of the lens, showing the transition from a wide-angle end to a telephoto end.

The diagram is divided into two main sections:

- Left Section (Cross-sectional View):** This section shows a cross-section of the lens barrel. Key components labeled include:
 - 274: A component at the front of the barrel.
 - 324: A component within the barrel.
 - 326G: A component labeled "(WIDE-ANGLE) Zoom down".
 - 326: A component labeled "Zoom up (TELEPHOTO)".
 - 324: A component within the barrel.
 - 326H: A component at the rear of the barrel.
 - 117: A component at the rear of the barrel.
- Right Section (Optical Diagrams):** This section shows a series of optical diagrams labeled Z1 through Z7, representing different zoom positions. The diagrams illustrate the internal lens elements and their relative positions:
 - Z1:** Shows the wide-angle end with elements 80, 78, 124, 115, 113A, 113B, 115, and 113B.
 - Z2 through Z7:** Show intermediate zoom positions with elements 80, 78, 124, 115, 113A, 113B, 115, and 113B.
 - Z8:** Shows the telephoto end with elements 80, 78, 124, 115, 113A, 113B, 115, and 113B.

The diagram also includes a dashed line labeled "Macro" and a vertical arrow indicating the zoom range from "Zoom down (WIDE-ANGLE)" to "Zoom up (TELEPHOTO)".
